Agency code:

984

Agency name: Texas Southmost College

Texas Southmost College in Partnership with University of Texas at Brownsville is committed to its role as an instrument of comprehensive community education. To serve the needs of individuals in a diverse, complex society, the college endorses the concept of open door admissions and accepts the underlying responsibility for directing students toward productive educational goals. To fulfill this role, Texas Southmost College undertakes to:

- · Provide two years of fully accredited academic courses leading to college degrees.
- Provide occupational/technical programs designed to prepare students for immediate employment.
- Provide continuing education for individuals who wish to pursue personal interests, enrich their lives, and advance themselves in their occupations.
- Offer development programs aimed at those who need to improve skills in order to succeed at college-level work.
- Serve the community by providing cultural opportunities that stimulate individual growth and enhance the quality of life.
- Provide educational programs that respond to the special circumstances of life in the College District, including the presence of two languages and the blending of two cultures.
- Work in partnership with The University of Texas at Brownsville to provide an efficient four year environment for the Lower Rio Grande Valley.

Texas Southmost College continues to fulfill these important purposes.

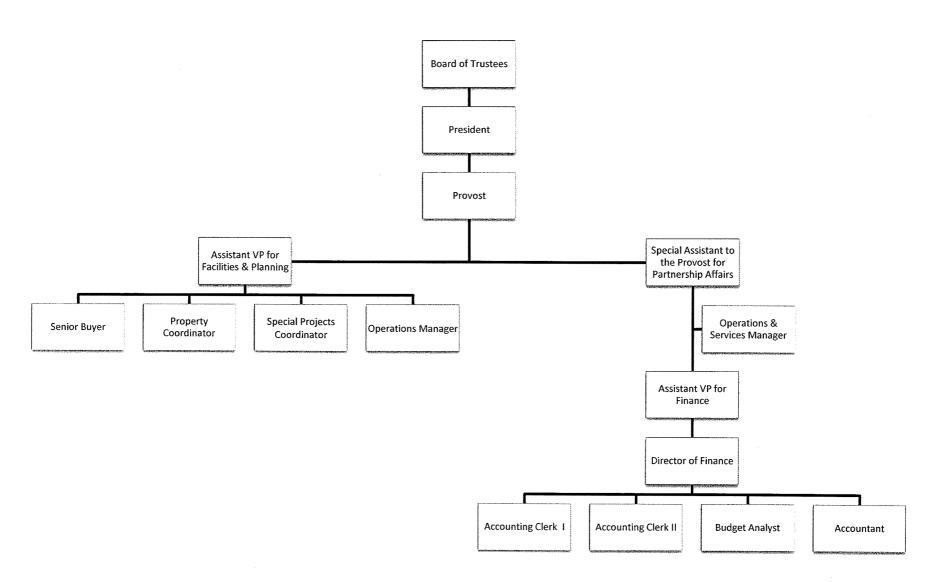

Texas Southmost College in Partnership with the University of Texas at Brownsville has accomplished much in the past two years and is anticipating even greater gains in the next several years. This can only be accomplished with sufficient funding from the State.

In Fall 2007, UTB/TSC instituted a revised Satisfactory Academic Progress policy to create higher expectations for steady progress toward degree completion. The policy requires that students maintain at least a 2.0 GPA and complete 70% of hours attempted. When comparing fall 2006, the year that preceded the implementation of SAP, to fall 2009, we noted that the percent of credit hours completed improved from 79.7% to 82.9%. Furthermore, the percent of credit hours withdrawn has substantially decreased from 9.5% in fall 2006 to 6.0% in fall 2009. An initial decline in enrollment was experienced due to students not meeting requirements. The decline is now in reversal.

State funding is critical to support the institutions' operations, including instruction, infrastructure, and research; therefore, Texas Southmost College requests that full formula funding be appropriated. Reductions would result in adverse impacts to the core functions of the College and Partnership's ability to meet growth demands, provide support services to the students and the ability to retain experienced faculty and staff needed to provide such services. In addition, the 81st Legislature used federal stimulus dollars from the American Recovery and Reinvestment Act (ARRA) to underwrite formula funding and incentive funding for academic institutions. It's not just necessary, but imperative, that general revenue or other state funds replace the ARRA funds to provide stable base funding for institutions of higher education.

To under-fund TSC is to continue the history of unequal funding for South Texas. To under-fund community colleges is to deny significant programs to more than half of the undergraduates in higher education in Texas. Texas Southmost College District endorses the additional formula request that was made by the Texas Association of Community Colleges.

Texas Southmost College District
